PRODUCT DETAILS

Glove Outer Shell : Treated premium grain cowhide (black colour)

Glove Lining: DuPont™ Kevlar® heat resistance with cut protection.

Moisture Barrier: Polyurethane (thermal resistant and breathable), bonded so it won't easily pull-out when hand is removed.

Cuff Wristlet: Two-ply wristlet cuff made from DuPont™ Kevlar® with leather pull-tab.

Glove Stitching: Glove is fully lock stitched using DuPont™ Kevlar® thread which is strong and heat/fire resistant.

Thumb Design: Wing thumb design for dexterity.

Reinforcement: Palm and thumb.

Sizes: XS to 3XL (Sizes 6 to 12)

Weight: 287 grams per pair (size M)

Washing Instructions : It is highly recommended that the external surfaces of the glove receive a hand wash/dry only rather than machine washing. If the gloves must be machine washed, use cool temperature/gentle wash setting and thoroughly dry before use. Wash using regular synthetic detergents. Do not use chlorine bleach.

Country of Manufacture: China

Certification: The Nirvana VII structural fire fighting gloves are independently certified to the EN 659 Standard (Protective Gloves for Firefighters) by SAI Global.

Standards: EN659:2003+A1:2008/AC:2009 (Protective Gloves for Firefighters)
EN388:2003 Level 4244 (Protective Gloves Against Mechanical Risks)
EN420:2003 Dexterity 3 (General Requirements for Protective Gloves)
